Work Experience

TouchFoundry, Front-End Engineer, Feb 2019 ~ Present

For Touchfoundry, the experience is everything. They combine human expertise and technology to craft products that look, feel, and respond with value.

My role is to write and style the front-end components that meet the requirements of our mocks and fulfill our user stories. I also monitor and process pull requests for production deployments.

BeyondBI, Front-End Developer, Apr 2018 ~ Feb 2019

Beyond BI is made up of a dynamic team of well-experienced business intelligence resources.

My roles included Web Development, Front-End Development, Angular, and Typescript Development.

This was all done in an agile team management space using Jira and Confluence.

Web Developer, Vivant Studios, Feb 2017 ~ Feb 2018

Vivant has developed many successful web design, landing pages, and custom apps for their clients in Pretoria, the greater Gauteng, and also internationally.

My roles included Web Development, CMS Development, Front-End Development, and Custom Email Signatures.

Evetechnology, IT Technician, Aug 2016 ~ Feb 2017

Evetechnology sells a wide range of high-performance computer components, hardware and gaming systems.

My roles included building custom PCs to accommodate customer requirements, overclocking gaming PCs, Software installation, Hardware Installation, and Customer support.
